

A true exploration into ground breaking Tech Minimalism, chunky house beats, minimal bass grooves, twisted synth lines, and a huge selection of original drum hits, sound effects and multi-sampled analogue synths!

Tech House & Minimal by Wave Alchemy supplies forward-thinking producers with an essential collection of fresh sounding and up-to-the-minute samples to inspire your latest dance music productions.

Offering over **930MB** (1.3GB including REX files!) of 24-bit royalty free wav samples, loops, sound effects and multi-sampled synth patches Tech House & Minimal gives you some of Wave Alchemy's most intricately produced sample material to date...

What's included in the pack?

- **930MB** of sample content (**1.3GB** including REX 2 files)
- **1340** 24-bit, 100% royalty free wav samples
- 616 precisely edited REX loops
- 202 drum loops including chunky tech house workouts, stripped back beats and intricately produced minimal techno rhythms
- 228 top loops - beautifully programmed kick free / add-on loops which can be used to enhance existing grooves or mixed together for endless possibilities. Including glitchy after-hours percussion, driving house add-on grooves and intelligently produced minimal patterns
- 101 synth loops included twisted leads, lush analogue beds and inspirational chord sequences
- 85 bass loops featuring snappy analogue squelches, pitch-bent minimal techno subs and uniquely layered warbles
- 30 sound effects samples including creative rise effects, noise falls, quirky electronic noises and everything in-between
- 45 tempo-synced sound effects - inspiring sound effects sounds and loops to be used in sync with your music. Including pitched risers, creatively side-chained noise and layered sfx loops
- 401 finely crafted drum hits which have been produced and recorded with our unique collection of high-end outboard studio gear. Folders are broken down into categories such as kick drums, snares & claps, hats, glitch & fx perc and synth percussion
- 23 'ready to play' multi-sampled analogue synth patches. Synths used include the Future Retro XS, Korg-MS-20, Moog Voyager and Waldorf Pulse amongst many others. All patches optimized and provided in Kontakt, Reason NNXT, Halion, EXS24 and SFZ formats

- 10 drum kits including sampler patches for Battery, Kontakt, Reason NNXT, Halion, EXS24 and SFZ
- All loops within this pack have been created in either 125, 127 or 130 BPM with each file being individually named with musical key information where appropriate.
